Summary:

Experienced Data Analyst with a track record in business intelligence and finance systems, seeking a challenging Data Analyst role that will continue to develop and progress my career. Skilled in data analysis, automation, and python.

Career Profile:

OVO Energy (November 2022 - August 2025)

Revenue Assurance Analyst

- Refined KPIs for billing estimation accuracy, enhancing the average estimated bill by leading cross-functional meetings and managing changes to the billing system.
- Advised on direct debit adjustments based on predictive analytics of price and volume changes.
- Implemented a process to catch anomalously high predicted yearly usage and reduce its impact on estimated bills and direct debits

Faversham House (August 2021 – October 2022)

Data Analyst

- Led transformation of BI team by automating routine tasks, significantly improving operational efficiency.
- Developed and maintained 8 Power BI dashboards for financial insights, utilizing Python for data visualization.
- Integrated systems for invoice processing using Python, enhancing data integrity and workflow.

SGN (November 2020 – April 2021)

Finance Systems Analyst

- Developed and maintained TM1 financial systems, ensuring data accuracy and error resolution.
- Automated financial data processes using Airflow, managing data from collection to integration into Oracle databases.

Unilever (September 2017 – July 2019)

Junior Finance Analyst

- Maintained data integrity across systems in the Business Information Team, resolving discrepancies.
- Produced and managed key financial reports, optimizing with PowerQuery and DAX for better performance.
- Supported Customer Development Finance with data-driven solutions, enhancing reporting accuracy and capacity.

Education:

- CIMA - Certificate in Business Accounting
- Southampton University (2014-2016) - Certificate of Higher Education in Aeronautical Engineering
- A Levels - A* Maths, A Physics, A Chemistry, C Design and Technology
- GCSEs - Maths A*, English B, plus 7 more subjects (2 A*, 3 A's, 2 B's)

Skills:

- Programming: SQL, Python, TI, DAX, M, VBA
- Tools: Power BI, Power Automate, SharePoint, Airflow, SAP, Oracle, BigQuery, Dataform, Looker Studio, Tableau, DataRobot
- ETL, Problem Solving, Time Management, Project Management
